Summary

MCA candidate at Techno College Hooghly (2025–2027, CGPA 9.20) and B.Sc (Honours) Computer Science graduate from University of Kalyani (2025, 82.43%). Full-stack project experience building AI-integrated web applications with strong programming, scripting, database, and cybersecurity fundamentals. Seeking an entry-level Software Engineer / Developer role.

Education

Techno College Hooghly <i>Master of Computer Applications (MCA) — CGPA: 9.20</i>	West Bengal, India 2025 – 2027
University of Kalyani <i>B.Sc (Honours) in Computer Science — 82.43%</i>	West Bengal, India 2025
W.B.C.H.S.E (Higher Secondary) <i>Higher Secondary — 78.20%</i>	West Bengal, India 2020
W.B.B.S.E (Madhyamik) <i>Secondary — 63.70%</i>	West Bengal, India 2018

Technical Skills

Programming Languages: C, C++, Java, Python
Web Technologies: HTML, CSS, JavaScript, PHP, React, Spring Boot, FastAPI, REST APIs
Databases & Backend: MySQL, PostgreSQL, SQL, Redis, SQLAlchemy, Email OTP Authentication
Authentication & Security: JWT, Google OAuth, Spring Security, Cybersecurity Fundamentals
AI/ML: Gemini AI, RASA, PyTorch, TensorFlow, CGAN, Applied AI with Python
Tools & Platforms: Git, GitHub, Vercel, Render, Aiven, Supabase, Upstash, Postman, MS Office
Core Concepts: Data Structures, OOP, DBMS, Full-Stack Web Development

Projects

BlazeURL — Full-Stack URL Shortener <i>React, Vite, Tailwind CSS, FastAPI, PostgreSQL, Redis, Google OAuth</i>	Aug 2026 – Sep 2026 Deployed
- Built a full-stack URL shortener with instant link generation, URL validation, custom expiry, click tracking, QR generation, and dashboard-based link management. - Implemented anonymous temporary URLs with automatic expiry and logged-in URL management using Google OAuth and JWT authentication. - Integrated Redis caching for fast redirects and PostgreSQL for persistent URL, user, and click data. - Automated expired-URL cleanup using scheduled GitHub Actions (Cron), removing stale records from PostgreSQL and Redis to maintain database and cache efficiency.	
SmartHire — Full-Stack AI-Assisted Campus Recruitment Portal <i>React, Spring Boot, MySQL, Gemini AI</i>	Jul 2026 – Aug 2026 Deployed
- Built a full-stack recruitment platform connecting students, recruiters, and administrators through role-based job-drive, application, and placement workflows. - Integrated Gemini AI for resume scoring, candidate-job compatibility, and matched/missing skill analysis. - Implemented Spring Security and JWT authentication with Cloudinary resume storage and automated recruitment notifications.	
CGAN-Based Trace Augmentation for Side-Channel Attack on ML-KEM <i>Python, PyTorch/TensorFlow, GAN, Post-Quantum Cryptography</i>	Sep 2025 – Dec 2025 Certificate Awarded; Under Review for Book Publication
- Designed a CGAN framework to generate realistic synthetic power traces for ML-KEM (CRYSTALS-Kyber) side-channel analysis. - Augmented limited and imbalanced trace datasets, reducing dependence on extensive physical trace collection. - Improved profiling attack performance by training models on CGAN-augmented traces alongside real side-channel data.	
Online Tutor Finder <i>HTML, CSS, JavaScript, PHP, Python, RASA</i>	Jan 2025 – Aug 2025
- Built a full-stack platform connecting students and tutors through role-based profiles, tutor verification, and location-based search. - Implemented email OTP authentication and a tutor interview workflow to improve platform security and trust. - Integrated a RASA-powered AI chatbot to assist users and streamline tutor discovery.	

Certifications

Tata Cybersecurity Security Analyst Job Simulation — Forage
Certificate of Participation in International Conference on “Adapting to Change and Creating a Sustainable Future through Knowledge” — Bhairab Ganguly College
Add-On Course: Way to AI using Python
